

Village of Nelsonville
Groundwater Protection Committee

Meeting Minutes
February 25, 2019 6:30pm | Nelsonville Village Hall

Present: Rubina Martini, Tarion O'Carroll, Caitlin Brillowski, Kyle Gordon

Approval of last meeting's minutes

Discussion about our mission: There are other quality of life issues we could address within this committee. We want all voices in Nelsonville to be heard.

Update on water testing: Results from one USDA source test came back negative for all microorganisms (human-specified, bovine-specified, and non-specific).

Discussion about recently proposed state legislation regarding water testing in Wisconsin.

Discussion about our problem, action, goal, resources.

Water testing plan: We are still waiting to hear back from the rest of the source tests. Once we get these results, we would like to then like to see if we can get our local groundwater flow and recharge zone mapped. We can explore grant opportunities for this in the future.

For next meeting: Bring ideas for other issues we can discuss in this committee. Develop questions to pose to the County.

Community Concerns: None

Next meeting: March 25 at 6:30pm at the Nelsonville Village Hall.

Meeting Adjourned at 8:30pm.
