Lake Elaine shoreline update: June 29th workday is delayed because the permit is still being processed. We are still hoping to complete this project this summer. Bio-logs will be here June 24. Dave casted some concrete steps to go down into the water. Thanks Dave!

Amy will look into getting signs made about the project that can be posted on-site. Sand and topsoil are ordered. We will be ordering native aquatic vegetation from J&J nursery in Wild Rose.

If the permit is not issued by July 27, we will install a split-rail fence at the shoreline.

- Tentative workday: July 27
- Rain day: July 28

Discussion about incorporating other park maintenance efforts on July 27 (e.g. Sanctuary trail maintenance, Playground clean-up). Stacy will lead. Rubina will create a flyer and Amy will include it in the newsletter and calendar.

Amy made a motion to make a request to the board to allocate \$1,000 of Park funds for materials to build a split-rail fence at the Lake Elaine shoreline and for recycling bins. Stacy seconded.

Discussion about replacing the red, white, and blue wooden posts at the Playground. Planters? Community members could adopt? Amy will call Central Waters about donating barrels. If the shoreline permit is not issued by the time of the workday – we will work on this project July 27. Gary Anderson will pull out the posts.

Recycling bin at Playground. Amy will look into getting recycling bins for the Playground.

Community concerns: Mark would like to plant a ginkgo tree in honor of Brenda Gingles. Possibly in the Playground. Amy and Mark will look into getting a plaque made.

For next meeting's agenda: Make a motion to request to the board to allocate \$150 of Park funds to pay for the ginkgo tree in honor of Brenda.

Next meeting: Wednesday July 10, 2019 at 6:30pm at the Nelsonville Village Hall
